

## at a glance

<b>About American Wave Machines, Inc. (AWM)</b>	American Wave Machines, Inc. (AWM) develops artificial wave technology that replicates the experience of real ocean surfing. Its patented SurfStream™, the world's first standing wave machine, is a technology breakthrough that delivers real surfing and wave riding capabilities. The company also offers PerfectSwell™ and WindSwell™ traveling wave generators. AWM surf technology is available for waterparks, surfparks, hotel resorts, and sponsored wave-riding exhibitions.
<b>Corporate Headquarters</b>	American Wave Machines, Inc. Solana Beach, California, USA +1.858.755.3865 <a href="http://www.surfstream.com">www.surfstream.com</a>
<b>AWM Products/Services</b>	<p>SurfStream, introduced in 2006, is the first standing wave surf pool that creates an authentic surfing experience anytime, anywhere. Riders at resorts, waterparks, sports events and cruise ships can use real surf boards with fins to surf on a deep cushion with water that creates an endless wave. SurfStream accomplishes this in a compact area, without the need for a large surge tank or surf-pool type installation.</p> <p>AWM also provides engineering, design and analysis services for surf pools, wave generation technology, and open channel flow. Using state-of-the-art tools, AWM develops computer and physical 3D models for design and analysis.</p>
<b>Company History</b>	<p>Bruce McFarland's love of surfing and skill in engineering lead him to design, develop and manufacture a new way to create artificial waves so that people of all skill levels could learn how to surf. He founded American Wave Machines, Inc. in 2000 to focus on the development of artificial wave technology. The company's emphasis since then has been on engineering consulting and research and development. AWM introduced the first standing wave machine, SurfStream, in 2006.</p> <p>AWM has received U.S. Patents 6,019,547; 6,629,803; 6,932,541 and other patents pending.</p>
<b>Awards</b>	SurfStream was selected for one of the Most Valuable Products (MVP) for 2007 by <i>Aquatics International</i> magazine and as one of <i>Waterpark Resorts Today's</i> "It" Products for 2007. The honors were determined by reader response to a feature in the January 2007 New Products issue of <i>Aquatics International</i> .
